CFE

Hycolin Professional Antiviral Room Fogger quickly and effectively sanitises areas up to 100m³ so is perfect for offices, cars, public transport, medical rooms and other areas where you need to sanitise hard and soft surfaces. Tested to BS EN 1276, BS EN 1650 & BS EN 14476 it is effective against 99.99% of bacteria, yeast and enveloped viruses. Leaves areas sanitised and fresh.

Directions for use: Ensure that all electronic equipment is switched off and all plug sockets are in the OFF position. Do not drink, eat or smoke in a freshly sanitised area. Do not use when humans or animals are in the area.

To ensure effective disinfection the room must be clean and dust free.

Shake can well before use. Remove protective cap, place can in the centre of the area to be treated, upright on a level surface. Ensure all doors and windows are closed. Press the nozzle down firmly. NOTE: Once activated the nozzle cannot be turned off. Leave the room and allow the spray to work for 30 minutes. After use, ventilate the area for a further 30 minutes before allowing use again.

Storage: Store in a cool, dry place. Do not expose to direct sunlight, heat sources or open flames.

*Effective according to BS EN 14476 against enveloped viruses which includes Coronaviruses. Also proven effective against the viruses that cause:

- Chicken pox
- Hepatitis C
- Rubella
- Hepatitis B
- Herpes
- Measles
